The General Manager  
Mr. Marcelino Henckert  
P. O. Box 957  
STANFORD  
7210

Dear Sir

**BREED-GOURITZ CATCHMENT MANAGEEMNT AGENCY: WATER USE  
AUTHORISATION IN TERMS OF THE NATIONAL WATER ACT, 1998 (ACT 36 OF 1998):  
HERMANUS RIVIERA ESTATES CC (MOAIC PRIVATE SANCTUARY): PORTION 1 OF  
THE FARM WORTEL GAT 723, CALEDON MAGISTERIAL DISTRICT.**

Your application for a water use authorization and registration dated 29 August 2016, the following:

The Breede-Gouritz Catchment Management Agency (BGCMA) has evaluated the submitted documents and hereby confirms that the proposed water use falls within the ambit of the general authorisation, Government Gazette No. 26187, Notice No. 399, dated 26 March 2004. Details of the Water Use registered appear in Table 1.

Table 1: Summary of Water Use activity:

Water Use(s)	Property Description	Quaternary Catchment	Purpose	Borehole Reference	Geographical Position Co-ordinates	
					Latitude	Longitude
Section 21(a)	Portion 1 of the Farm Wortel Gat 723	G40L	Industrial Use / Domestic	723CA/1 B2	34° 25' 37.6"S	19° 21' 18.1"E

Your water use(s) have been registered for the basis of the Breede-Gouritz CMA's records. Find attached with this letter your registration certificate and a copy of the relevant general authorisation for ease of reference.

Please review the certificate and inform the Breede-Gouritz CMA within one calendar month of any errors which may have occurred. Send the enquiries to the Water Allocation & Registration Management System (WARMS) section, e-mail: [warms\\_queries@bgcma.co.za](mailto:warms_queries@bgcma.co.za) or Tel. no. 023 346 8000.

The groundwater abstraction in the quaternary drainage area (G40L) is 400m<sup>3</sup>/ha/annum in terms of Section 39 of the general authorization as per National Water Act, 1998 (Act 36 of

K5 000

1998). Therefore the property, portion 1 of the Farm Wortelgat 723, Caledon could abstract 50 000 m<sup>3</sup>/annum for Industrial Water Use.

The water use may not impact on a water resource or any other person's water use, property or land.

Is not excessive in relation to the capacity of the water resource and the needs of other users.

Should the groundwater be utilised for Domestic Use, approval needs to be obtained from Overstrand Municipality.

The Domestic Use of groundwater needs to comply with the SANS 241: 2011 guidelines for drinking water. Regular monitoring must be done to ensure compliance. If the quality is of such a nature that it is a threat to human health, then the Breede-Gouritz CMA and the Provincial Department of Health must be informed of the procedures to rectify the problem experienced.

The quantity of groundwater abstracted must be metered or gauged and the total recorded as at the last day of each month. The information must be made available to the Breede-Gouritz CMA and the Stanford Aquifer Monitoring Committee.

The Hermanus Riviera Estates cc needs to nominate a responsible person to represent the company at the Stanford Aquifer Monitoring Committee meetings.

The onus remains with Hermanus Riviera Estates cc to comply with the conditions set as per general authorisation.

The general authorisation shall not be construed as exempting the authorised, Hermanus Riviera Estates cc from compliance with the provision of any other applicable Act, Ordinance, Regulation or By-Law.

The responsibility for complying with all the provisions of the general authorisation is vested in the water user and not any other person or body. Non-compliance constitute an offence, and it will be dealt with in terms of Section 53, 54 and 151 (2) of the National Water Act, 1998.

This office trust it is acceptable and if you do have any further queries, please do not hesitate to make contact with this office.

Yours Faithfully

  
**PHAKAMANI BUTHELEZI**  
CHIEF EXECUTIVE OFFICER
